Subject: Follow up to 09-09-14 GCD Project updates meeting

Jim/Jamie/Stef,

Just following up on this.

Regarding Beachwalk FM, Dry Force Main (para. 14.b) talking paper.

Background: new Beachwalk FM extremely large, slow velocity, potential of creating odor issues downstream of FM, want to submit a talking paper for consideration to classify new fm as a dry FM.

Follow-up: Jamie and Stefanie was to discuss with Jim if ok to submit talking paper.

Let us know.
